

# Forensic Audit Certificate

Target Dataset: Audit: pravi\_budzet.csv  
Risk Evaluation: LOW — Keine Anomalie erkannt — Daten erscheinen integer

## Mathematical Matrix Summary

| Metric Analysis Layer | Calculated Score | Threshold Metric | Status Verdict |
|-----------------------|------------------|------------------|----------------|
| Benford's Law (Chi²)  | 0.0134           | 15.507           | PASSED ✓       |
| Shannon Entropy       | 3.2868 bits      | >= 3.0 bits      | PASSED ✓       |

## Digit Frequency Deviation Chart

**Audit Integrity Verification:** This document was generated automatically by an independent, open-source multi-agent diagnostic core. Statistical validation is permanent and un-biased.
